

How Carrier Drove Engagement Among High-Intent Consumers Using VDO.AI’s Targeted Ad Solutions

Overview

To engage potential buyers during peak summer, Carrier partnered with [VDO.AI](#) to launch a multiscreen campaign across CTV, OLV, and Display. The objective was to drive awareness and consideration for Carrier’s intelligent, energy-efficient cooling solutions, targeting the right audience, at the right moment, with contextual storytelling.

Campaign Details

CTV-First, Weather-Integrated Creatives

Using a CTV-first strategy, [VDO.AI](#) embedded a real-time Weather API widget into Carrier’s multilingual creatives. Viewers saw temperature data specific to their location, making the energy efficiency message hyper-relevant and timely.

Immersive Visual Storytelling

Interactive OLV and 3D Display units showcased Carrier’s design and energy features through relatable summer scenes and scroll-stopping creatives.

Localized, Language-Led Engagement

The campaign ran in multiple regional languages, ensuring resonance across cities like Mumbai, Delhi NCR, Hyderabad, Chennai, and Kolkata, enhancing connection through linguistic relevance.

Real-Time Insights for Smarter Optimization

Powered by [VDO.AI](#)’s proprietary tech stack, the campaign leveraged real-time insights to continuously optimize performance and ensure zero wasted impressions.

Key Insights

- Women aged 35–44 showed the strongest brand interaction, becoming a key audience segment for Carrier.
- Tier-2 markets such as Lucknow and Patna showed higher click-through, suggesting growing product consideration beyond metros.
- Balancing CTV (awareness), OLV (education), and Display (conversion) maximised campaign impact.
